

# Paving Contractors Pollution Coverage (CPL)

**Study Finds:  
Proximity to Coal-Tar-Sealed  
Pavement Raises Risk of Cancer**

People living near asphalt pavement sealed with coal tar have an elevated risk of cancer, according to a study in the journal Environmental Science and Technology. Much of this calculated excess risk results from exposure in children age six or younger to polycyclic aromatic hydrocarbons (PAHs) from the sealant. So why not protect your company from pollution related concerns by obtaining a contractor's pollution liability policy today.

Minimum Premium for 1 Million in coverage is \$2500
