

I.A.Q.

Indoor Air Quality Insurance Program

Indoor pollution sources that release gases or particles into the air are the primary cause of indoor air quality problems in homes. These pollutants can come from Asbestos, Lead, Mold and Radon, and other sources that require certified professionals to test and remediate these pollutants.

We have a number of great "A" rated environmental markets that will write this combined policy program that includes General Liability, Contractors Pollution Liability and Professional Liability. Minimum premium for 1 million in limits is \$2500, with a \$2500 dollar deductible.

For more information contact us today and we'll review your risk and do our best to provide the most affordable coverage available.
