

PAINTERS POLLUTION COVERAGE

FOR LEAD CERTIFIED PAINTERS AND CONTRACTORS

Lomax
SOLUTIONS, LLC.

Hey painters
don't go without your
pollution coverage

99%

of CGL policies come with
a total pollution exclusion

You'll be surprised
just how much
you can save!

Effective April 22, 2010, the Environmental Protection Agency will require that any contractor performing work on a pre-1978 home or child-occupied facility comply with new lead paint-safe regulations. Our contractor's pollution liability coverage program for painters and contractors satisfies the exposure created by this new regulation. Lead poses a pollution risk that should not be overlooked!
